Subject: critical infrastructure bill
Attachments: MS Critical Infrastructure Legislation.docx; Protect Public Safety piece.docx

Bobby, as we have discussed, we are working on legislation to provide a definition of "critical infrastructure" and to provide for criminal penalties for those who willfully and illegally trespass, disrupt, destroy, etc. regarding such facilities. We are working with the American Fuel & Petrochemicals Manufacturers group in DC and local stakeholders to pass this legislation in Mississippi. Last year Louisiana passed the legislation and Oklahoma the year before. Just take a look and give me your thoughts and questions. We are expecting a bill from Chairman Cockerham and Chairman Doty on the respective sides. Thanks, Joe
